AN OVERVIEW OF OPPORTUNITES

- 2023 -

ssamangalore.in

A PROFESSION

An architect has a great Social Responsibility in shaping the built environment.

Shelter is a basic human need, with an ever increasing need for space for human activity.

Potential projects range from Residences, Apartment Complexes, Hotels, Campuses, Office Buildings, Adaptive Reuse of Heritage Structures and Urban & Rural Planning.

Construction is and will be an ongoing activity.

OPPORTUNITIES FOR AN ARCHITECT

After graduation the newly qualified architect has a range of employment and creative opportunities.

After a few years of practical experience, the graduate can set up their own practice, freelance or work with a firm.

An architect can opt for teaching and research.

An architect can also diversify into creative fields like graphics, animation, movie making, set design, interiors, architectural photography or journalism based on their inclination.

QUALITIES EXPECTED

Good sense of time management.

Ability to work as a team player

Self Disciplined and Goal Oriented

Interest and fascination in built spaces.

Visual and Verbal Communication skills.

Hard working and self motivated.

WHY SRINIVAS SCHOOL OF ARCHITECTURE

Experienced and dedicated faculty involved in Professional Practice and Research.

Our consistent results in academics, design competitions, historical documentation speak for our commitment to excellence.

Affordable fee structure. Deserving students can avail for scholarships.

DEPARTMENT FACILITIES

Class Rooms: The classrooms have built in projection system for lectures. Each class room hosts 40 students with cushion chairs.

Studios: SSA has 10 Studios equipped with A1 size 40 drafting tables with stools in each studio. The spacious studios are designed in such a way that there is good natural light and ventilation for the interior spaces. The Studios have built in projection system for lectures.

CAD LAB: The department has a computer laboratory with 40 computers, 2no.A3 size printers, 1- A0 Plotter. All the Systems have broadband internet connections with necessary software.

Exhibition Hall: The Exhibition Hall is dedicated to showcase the top best design presentations & models. The showpieces are an inspiration to other students to set their standards higher

Model Making Work shop:

Model Making Studio is required for developing 3D Visualization of the students & better understanding of working with different materials like Paper, Card board, POP, Balsa wood, Clay, fiber glass, plywood Thermo coal etc.

Library: The School has a well stacked library which is frequently upgraded with books on various subjects.

Material Museum: Materials like Stone, Bricks, Wood, Glass, Steel, Aluminum samples, samples of fixtures & construction models

Climatology Lab: The lab consists of equipment like Lux meter, Digital Anemo Meter, Automatic Rain gauge, Whirling Hydro meter, Wet & Dry bulbs Thermo meter, Stevenson screen, Wind wane, Sunshine Recorder, Pyranometer, Cube mold etc.

Survey Lab: The lab consists of equipment like Theodolite survey, Dumpy level, Spirit level, Total station, ranging rods, Measuring tape, Chain, tripod, Table etc. which is useful to carryout Project survey work on the field.

College ground:

SSA is equipped with well manicured lawns and a 80,000 sq. ft field for students to practice various sports.

Canteen:

Campus is equipped with 3 canteens which offers very good vegetarian food. One Bakery and Juice center is also present on campus

DEPARTMENT ACTIVITIES

The architecture department has its own departmental fest called **“Archiholics”** conducted by students every year . This fest is a culmination of fun and learning. It consists of design and other competitions including sports and talks by the best architects from all over the country.

ARCHIHOLICS

TESTIMONIALS

KEERTHISAGAR
(BATCH OF 2017)

Keerthisagar is running her own firm called 'Solstice Design Studio' in Bengaluru and also will be pursuing her master's degree in Canada in the coming year.

"An investment in knowledge pays the best interest, such is our institution, Srinivas School of architecture. SSA had a major impact on my life not only in education but also in terms of life skills, leadership and time-management."

Sanketh Bharathish is a practicing professional and researcher. He is perusing his masters in Architecture and Urbanism in the University of Notre Dame with a full scholarship of around 50,000 USD .He is an outstanding student and scholar. In 2018 he was awarded the INTBAU fellowship to study traditional housing in South India. Sanketh has published and presented papers on architecture and sustainability and has a passion for painting and poetry.

SANKETH. B
(BATCH OF 2018)

"I have many memories to cherish at the School. The School has made a great impact on me professionally and personally. It has taught me to be independent, to be a leader, and to be passionate about the work. I was fortunate to get the right direction and inspiration from the faculties at every stage and it has helped me to channelize my priorities, the guidance which was very crucial when you are young and naive...."

SREEKANTH. P
(BATCH OF 2019)

Sreekanth P: is an architect with an independent practice. Sreekanth is a well loved and respected student and has the distinction of being awarded the best thesis project of his batch in SSA.

"Passion for architecture From my childhood ended me up in Srinivas School Of Architecture at the age of 35 years. In spite of my age I could complete the 5 year B-Arch course successfully due to the help and support of the dedicated faculties of the institution. I am able to implement most of the architectural concepts in design which I was unaware during my working days. Now I am well placed setting up my own Architectural firm having a couple of projects".

COURSE OVERVIEW

BACHELOR OF ARCHITECTURE

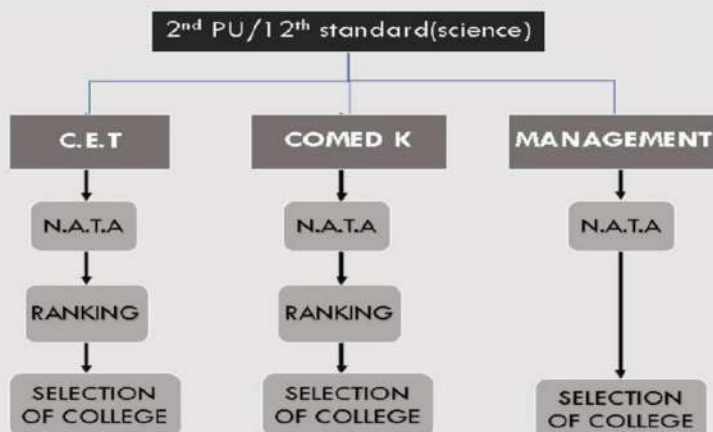

The B.Arch. course is of **5 year duration**. Each year is divided into **2 semesters**.

In the **1st Year**, students are given a foundation in basic design, graphics, model making, construction materials etc.

From **2nd to 4th year**, the student is exposed to a range of studio projects of varying complexity. They are also taught subjects like building construction, services, structures, estimation and costing, computer application, professional practice etc. For one semester, In the **final year**, the student has to undergo professional practice internship. In the remaining semester, the student has to do a **thesis** project to demonstrate the knowledge and skill acquired during the course duration.

After successful completion of the 10 Semesters, the student is awarded a B.Arch. Degree. The graduate has to register with the **Council of Architecture (COA)** to use the title of Architect.
